PROFESSIONAL SUMMARY

Recent Computer Science and Telecommunications graduate from the National and Kapodistrian University of Athens (NKUA), currently pursuing an M.Sc. in Informatics with a specialization in Data, Information, and Knowledge Management. Possess a solid academic foundation in Algorithms, Databases, Operating Systems, Computer Networks, and Data Analysis. Hands-on experience in executing academic projects focused on Computational Learning Theory, Data Mining, Digital Accessibility, and Information Systems Design. Strongly motivated by Artificial Intelligence, Large Language Models (LLMs), Computing Systems, and Networks, aiming to leverage data to solve real-world problems.

EDUCATION

National and Kapodistrian University of Athens (NKUA) | Athens, Greece M.Sc. in Informatics – Specialization: Data, Information and Knowledge Management | [10/2026 – Present]

National and Kapodistrian University of Athens (NKUA) | Athens, Greece B.Sc. in Computer Science and Telecommunications | [09/2021 – 10/2026]

- **GPA:** 6.87 / 10

Vocational High School of Kalambaka (EPAL) | Kalambaka, Greece | Diploma in Information Technology — Specialization: IT Applications Technician | [Graduated: 2021]

- Grade: 20 / 20 (Excellent)

PROFESSIONAL EXPERIENCE

UniAI | Community Team Member | [10/2026 – Present]

- Lead the recruitment process across multiple departments, from initial screening to final interviews.
- Enhance network connections and community growth by organizing targeted events and optimizing initiatives based on data-driven feedback.

Municipality of Kalambaka | Kalambaka, Greece IT Support Intern | [04/2026 – 10/2026]

- Provided technical support to users and municipal administrative services, ensuring seamless IT operations.
- Troubleshot and resolved hardware, software, and network configuration issues.

CERTIFICATIONS

- Pedagogical and Teaching Competence | Acquired via NKUA undergraduate curriculum
- LRN Level 1 Certificate in ESOL International | English Proficiency (C2 Level)
- Panhellenic STEM & Educational Robotics Competition | Scientific Committee Member & Judge | Athens College, Psychiko, Greece [26/03/2023]
- Erasmus+ Programme (KA102) | Mobile App Development & Digital Marketing | Barcelona, Spain [17/11/2019 – 02/12/2019] | Project ID: 2019-1-EL01-KA102-062151

ACADEMIC PROJECTS

Computational Learning Theory

- Analyzed and implemented theoretical machine learning models, evaluated learning algorithms, and performed computational complexity analysis.

Data Mining & Analysis

- Applied data mining and knowledge discovery techniques, including data preprocessing, model evaluation, and statistical analysis of results.

Digital Accessibility

- Studied and evaluated websites and applications according to international web accessibility (WCAG) and usability standards.

Database Systems (Travel Agency Project)

- Designed and implemented a relational database for a travel agency, including ER modeling, schema transformation, and advanced SQL queries for managing clients and reservations.

Database Systems Implementation

- Explored database internals, focusing on disk storage organization, indexing structures (B+ trees), hashing, query optimization, and transaction management.

Personal Portfolio Website

- Developed and maintained a personal website to showcase academic achievements, technical skills, and personal projects.

GitHub Portfolio

- Managed public repositories, documenting academic assignments and programming projects to demonstrate clean code principles.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, SQL, HTML
- **Databases & Storage:** SQL, MySQL, Database Design, B+ Trees
- **Operating Systems & Systems:** Linux, Windows, Systems Programming
- **Networking:** TCP/IP, LAN/WAN, DNS
- **AI & Data Science:** Machine Learning, Data Mining, Data Analysis
- **Tools & Methodologies:** Git, GitHub, VS Code, Microsoft Office, LaTeX, Google Classroom
- **Core Competencies:** Algorithm Analysis, Data Structures, Computational Geometry, Technical Documentation, Problem-Solving, Team Collaboration

---

RESEARCH INTERESTS

Primarily focused on Computer Science with a strong interest in Artificial Intelligence, Machine Learning, and Data Science/Analysis, motivated by their potential to leverage data and build models that solve real-world problems. Concurrently, I am deeply interested in understanding core system infrastructures—such as Computer Networks, Distributed Systems, and Information Systems Security—believing that impactful AI and data applications require a thorough understanding of the systems on which they are built and executed.

LANGUAGES

- **Greek:** Native
- **English:** Proficient (C2 Level)
